

THE SCOOCH PROJECT

A life and leadership development series designed to help people grow “just a little” in every area of their life!

It may be time to move...even if just a little!

When someone decides to make a change, sometimes it needs to be big. But most of the time it is the small changes that make the biggest difference.

Scooch will help you do that. You will learn new leadership and life strategies to bring out the best in you and your team! Each session will focus on ways to grow and improve as a person, a leader, a spouse, a parent and in every way. We take an in-depth discovery of what it takes to make leadership and life a little better. Effective people and leaders take the time to develop their skills through continued learning and collaboration with other people and leaders.

“The first step in a ‘dramatic’ organizational change program is obvious – dramatic personal change!”
Tom Peters

The format will be interactive, encouraging and fun. We will use video, books, interviews, conversation, discussion, speakers and more. A good part of each session will feature a leadership challenge and thought process that is designed to help each person SCOOCH...move just a little!

Scooch is open to anyone, even if they didn’t attend Leadercast.
