

THE SCOOSH PROJECT

Change happens when you *Scooch* just a little.

THE 1° DIFFERENCE

Water is *hot* at 211°. But at 212°, it boils, becomes steam, and is one of the most powerful forces of nature.

A shift of just 1° has made all the difference. **This is what The Scooch Project is all about.**

When a person decides to make a change in life, many times the small, seemingly insignificant changes make the *biggest* difference.

1° of change makes the difference
